

**Position: Product Designer / Senior Product Designer (dependent on experience)**

This is an outstanding opportunity to develop your career in a dynamic and growing design consultancy. Built around an ethos of forming lasting partnerships between its leaders, people and clients, it has never been a better time to join the team as we are enjoying a significant increase in the number of exciting projects with new and existing clients.

An opportunity has arisen for a hands on Product Designer who will play an important role in our design team. Working for a consultancy you will apply your creative skills to a diverse range of projects across various industries. You will produce designs from early ID research / sketching through to a fully engineered product solution.

**Key Requirements / Skills:**

- All round Product Designer, capable of developing designs from initial concept, through ID and into engineering, ready to output 3D CAD data for prototype/production manufacture.
- Minimum 5 years' professional design experience.
- Injection mould plastics design experience.
- Extensive 'hands on' experience of a CAD Engineering software package (SolidWorks ideally) including complex surfacing.
- Have a fluid, natural sketching technique.
- 3D Rendering/visualisation skills.
- Photoshop.
- Confident presenter.
- Good visual presentation skills.
- Product / Industrial Design Degree.

**Beneficial requirements:**

- Consultancy experience or experience within a range of industries.
- Familiar with other manufacturing processes beyond plastic injection mould.
- Able to show physical plastic injection mould examples of design work at interview.
- Good research skills.
- Ergonomics experience.
- Fabrics design experience.

This is a superb opportunity to join a forward thinking and successful design consultancy. In return you can expect a competitive salary & company workplace pension in a progressive and supportive culture and the opportunity to grow your career within a well-established and growing company.

Email [jobs@i4pd.co.uk](mailto:jobs@i4pd.co.uk) quoting job reference '**Product Designer (PD/01)**' and include the following;

- Your CV.
- Portfolio with at least 3 examples (preferably more) of professional work. Portfolio should be in pdf format or a link to an online portfolio, applications without a portfolio will not be considered.
- A covering letter briefly describing the contribution your skills & experience would bring to the team.
